The Winthrop Grand

The Winthrop Traditional

The Winthrop, reminiscent of stately Early American homes, lends grace to its dramatic interior, beginning with the entrance. Use of nine foot ceilings and unique window design and placement enhances the home's inviting nature. Formal oversized living and dining rooms are designed for maximum entertaining comfort and convenience. An expansive kitchen, including center island and breakfast nook, is enhanced by optional skylights. A three car, side entry garage is optional. Four superb bedrooms are located upstairs. The design is distinguished by a master suite featuring a cathedral ceiling, unique curved walls and master bath with a platform tub. The Winthrop's luxurious details create a captivating world of elegance waiting to be explored.
